

SCHUBERTS  
Where Experience Counts

**Schubox®™** Paint and Lacquer drying system with gas catalytic infra-red. Available in standard and custom dimensions. The Schubox – Often imitated, never equalled.

**NEW!! ATE Simple Paint.** This revolutionary new retro-fit system for compressed air feeds, produces a deionising process that eliminates painting defects, improving transfer and deposit of paint onto products, reducing the paint consumption, inhibits dust particles, reduces the over-spray and improving the general quality.

**Spray booths and enclosures.** Standard range and custom built spray facilities, clean rooms, filtered air input, positive pressure rooms, sanding zones and catalytic IR drying zones.

**Kit-Cat®™** systems. Designed to be retro-fitted inside spray facilities or drying rooms for rapid curing of all wet product.
